PERSONAL STATEMENT
SAMPLE

My parents tell me that when I was younger, my favorite phrase to use was, "there has got to be an easier way to do this." Necessity is the mother of invention, and my determination to make life easier has led me to create numerous solutions to try and simplify daily tasks. I didn't know it at the time, but it was that mentality that would drive me towards engineering in the future. My parents had always hoped that I would take over the family business and study something related to management, but after my pre-engineering courses taken in high school, I know the path that I hope to take. I want to put my creativity and curiosity to work as an engineer, and an Engineering degree from Lasham University will give me the training and credentials I need to succeed in the field.

As an engineer, I learned that it is most important to continue to create despite how many failures are encountered. Throughout my pre-engineering track in high school, I have experienced multiple setbacks, including one which destroyed months of work with a single mistake. Sometimes, projects completely failed due to poor design, implementation, or both. However, I have learned to take those in stride and learn from past mistakes in order to bring a better product at the end. Despite having corrupted the source code for my underwater robot a week before the competition, I managed to salvage the parts and create a better robot based on the design of the first, which won me first place in the 2015 Seacrest Robotics Competition.

Engineering is a difficult major, and I do not pretend to expect an easy ride throughout my years in college. However, I believe my strong physics, science, computer science, and engineering background will give me an excellent foundation on which to build further studies. I look forward to taking advantage of all that Lasham University has to offer, including extracurricular activities tailored for engineers with similar interests. I am greatly interested in pairing with a faculty member to also conduct research, using my knowledge and skills to potentially make life easier to people around the world. The pursuit of efficiency is what drove me to the field of engineering in the first place; it would be an honor to use it to also bring much-needed innovation to the community.

R. GARCIA Construction and Development
821 C. Cruz St. Costa, Bizar
021-332810

Company Profile

BACKGROUND
R. GARCIA Construction and Development was established in 2014 offering Architectural Design for residential houses and Structural Design for small-medium size buildings. [hiring.manager@gmail.com]

Dear [Mr./Mrs./Ms.] [Manager's Name],

Please accept my enclosed application for the position of dental assistant at [Clinic Name]. I noticed your job posting on [Website Name] and am happy to say that my 5+ years of dental assistant experience matches your clinic's needs perfectly.

First and foremost, I possess a Dental Assistant Associate Degree earned from Trident Technical College in 2013. Furthermore, I was recently re-certified by the Dental Assisting National Board in 2017, so I am in fact a Certified Dental Assistant. In other words, you can rely on me to have the necessary knowledge, skills, and abilities, as well as a full understanding of all safety and procedural guidelines that must be followed in a clinic.

I noticed in your job description that you are looking for a candidate that will require very little training and supervision. After gaining 5+ years of dental assisting experience, I can guarantee that I am completely familiar with the routines associated with patient care, record keeping, performing dental work, and handling scheduling, billing, insurance, and even doing inventory maintenance. I am prepared to immediately handle all assigned tasks competently and efficiently. Allow me to highlight three relevant bullet points from my resume:

- Prepare 15 patients daily to undergo dental procedures, and assist dentist with sterilizing or disinfect instruments, setting up instrument trays, and preparing materials
- Take and record patient medical and dental histories and vital signs, and record treatment information in patient records with 100% accuracy
- Monitor dental supplies and equipment inventory and make orders, achieving 5% reduction in expenses by discovering new suppliers

I would love to have an opportunity to join the team at [Clinic Name]. I am looking forward to having a more detailed discussion with you about how I can join your team and help you achieve your goals.

Sincerely,

[Your Name]
