But I wonder why, all of a sudden, this box was no longer ceded ... PS: I specify that I would like the update to be done alone without any intervention. - Friday 15A/rms 2022 - Our RSS children in our newsletters @pcastuces you are in the section: Protica and Tips / Excel re-act in this article Tweet more than 150 tricks to excel your fans Do not receive a relatory more automatically when you complete your cells and are required to press the F9 key every time you want to update your information? This is done using the "S", which will not change the formula when copying and pasting. The principle, I created a module in my file and observe this code: private sub test () application.ontime now () + timevalue (00: 01: 00 à, À à € "ActiveWorkbook. My file It does not update, I do not know how to do it, I'm looking for unimaginable drugs, but I can not find any case that looks like mine. If the fan has not been updated automatically, this is the Formula composed of one or more "\$". OriginalAuter SmallHacker | 2013-07-29 Usually, if you copy and paste a fan, the skyline will be updated automatically in relation to the way the formula derived in the Spreadsheet. Thanks infinitely Good evening, a reciprocated test on the net. I look at what I can (delay in my email ...). I'll see a function in a leaf module (where he does not It has nothing to do) .Mje is probably not a good script, but I do not see any MFCs, 2 functions in Module1, a foliar foliage3 (which usually does not have nothing to see and M such a place, I said that). (The last one can or may not seem like a stupid question, but I do not have a condom experiencing with Excel macros and as such have no ideas about which are your capabilities in terms of manipulating spreadsheets.) The best solution is probably to recalculate when the user interacts with him, form, for example, with the spreadsheet switching. I could not find a configuration in its own excel, perhaps indicating that this function exists. 96Cletyng-subrepart.xlsm (27.72 KB) Mcelui-Ci opens. One of my spreadsheets deals with several choias, among other things, the date and current time, and it would be comprehensive to automatically updated itself from time to time to have manually pressed F9 or change one of the creeps.
